

Randy Sunderman has 17 years of consulting experience with a focus in economic development, socio-economic analyses, land use planning assessments, feasibility assessments, business development, and program evaluation and monitoring. In addition, Randy has worked for the provincial government delivering economic development programs and assisting with program development and evaluation for the province of British Columbia. Randy has also worked extensively with rural and First Nation communities throughout British Columbia on issues of economic and business development.

Randy graduated from the University of Victoria with a Bachelor of Arts in Economics and a Bachelor of Science in Biology. He is a board member with Community Futures of Thompson Country and a member of Forum for Research and Extension in Natural Resources (FORREX) socio-economic working group. He is a long time member of the Economic Development Association of BC, a member of the Professional Economists of BC and an associate member of the Council for Advancement of Native Development Officers.

Randy is the principal of the Kamloops based Peak Solutions Consulting Inc., a consulting firm that focuses on socio-economic assessment and economic development assignments for clients in British Columbia and the Yukon.
